Our goal is to develop well-rounded young men who learn not only the fundamentals of football, but also the importance of education and teamwork, in an atmosphere conducive to developing sound mind, body and character - and having a good time along the way. We will practice the ideals of sportsmanship, scholarship and physical fitness during this camp.

The Legacy Football camp is a readapted youth tackle football instructional and developmental playing method for players wanting to take the next step in football. Every participant will receive a full range of training in a number of positions in order to receive a full experience and understanding of the game.

The chief objective of the camp is to provide ALL kids the chance to have an enjoyable experience every time they step on a football field. The Legacy Football Camp is designed to teach every participant every position through a step-by-step progression of skill instruction packaged in a re-adaptive, fun and entertaining manner. I would like to personally invite all parents, family members and friends to experience with their child by watching the camp and asking questions at anytime.
